**FOURTH Addendum**

**RELEASE DATE – 03-12-2018**

The SIM PMO's official responses to questions submitted as of 9am, March 12, 2018 are as follows:

1. **Question:** Within the set of questions about the Collaborative, there is a question that asks you to list the members of the Collaborative and their sectors. This is within the 5 page limit. If we were to list all the members of our collaborative here we would give up quite a lot of space and not be able to fully answer all the questions. Is it sufficient to list some key members and refer the reviewers to the signed statements of participation that are attached?
2. **Response:** You may list the members of the collaborative and their sectors in a separate document right after the narrative. This will not counted towards the page limit.
